I'm starting an art project on the Celtic diaspora, I'm looking for anyone of Welsh, Scottish, Irish, Breton, Cornish or Manx heritage any where in the world to help. Participation requires minimal effort and you get an original piece of artwork out of it! DM me if interested :)

These flags were sent free of charge to anyone of Celtic heritage around the world willing to participate, with a request that in return they send a photograph of the artwork somewhere where they live.
This is a collection of those images.
